GOING FURTHER

(additional study)

The temptation of sin one of the key spiritual issues in our study today. Temptation is the solicitation to do evil with the promise of benefit. *"Sin is crouching at your door; it desires to have you, but you must master it"* (or it will master you). As one author put it *"I can resist anything except temptation."*

There are four basic responses to temptation:

1. Give in (because it feels good)
2. Resist it (fight it...this is the hardest)
3. Wish it away (of course it never goes away)
4. Underestimate it (which often finds us slowly being swallowed up by it)

Read James 1:13-15, here James describes the dynamics of the "evolution of sin." Let us quickly note that the first word to underscore in our minds is *when* we are tempted, not *if*. Temptation will always be present in the believer's life. Yet, as James points out, we should never say that God is tempting us; temptation is a result of Original Sin.

Three steps to the dynamic of temptation are aptly illustrated through a fishing metaphor:

1. The "bait" is dropped into the water. The world and the Evil One is good at casting tempting sin into our life.
2. We are attracted to the bait. Why? Because our "own evil desire" which lay inside of us seeks satisfaction. As Paul stated it, *"We do what we don't want to do."* (Romans 7:15).
3. Temptation turns into sin when we yield to it. *"Then, after desire has conceived, it gives birth to sin; and sin when it is full-grown, gives birth to death."* (James 1:15).
